

# The Healing Touch

Offering more than just skincare solutions using products from a cult-favourite brand, SK-II Boutique Spa redefines the holistic wellness experience

When a top international skincare brand and personalised service come together, you get pure bliss. That's what customers at SK-II Boutique Spa experience from the moment they walk through the luxurious sanctuary for the body and soul.

The spa opened in Singapore in 2004 to much acclaim, being the first in the world to offer facial treatments that exclusively use SK-II products, hailed for delivering healthy, clear skin with a youthful glow. A solutions-based approach to wellness is at the core of the spa which was conceived by Calvin Ng, who has worked with SK-II for over 20 years, with the vision of incorporating the benefits of the brand's products into complementary skincare treatments.

**"We strive to be the authority on skincare, offering the best possible solutions, be it through recommendation of suitable products, professional care or state-of-the-art skincare technology."**

—Calvin Ng, founder,  
SK-II Boutique Spa

## BEST-SELLERS AT SK-II BOUTIQUE SPA

### SK-II AURA LUCENCY FACIAL

- A pampering treatment that uses advanced massage techniques and SK-II Genoptics products, including a mask for the face, eyes and neck, for clear, glowing skin.

### SENZE OXYGENATED FACIAL

- Leveraging on a medical-grade machine, oxygen is delivered deep into skin for instant revitalisation in this treatment suitable for all skin types, particularly acne-prone and sensitive skin.

### SENZE RENEWAL PROIONIC FACIAL

- An anti-ageing treatment that promises to define contours and minimise appearance of wrinkles by harnessing Indiba radio frequency technology to boost skin's regeneration ability.

Whether you visit the Millenia Walk or Shaw Centre outlet, every session begins with the therapist getting a detailed understanding of your needs.

This information is recorded and periodically reviewed to ensure the customer receives the right care every time. Inside each luxuriously-appointed suite are the latest facial instruments to help achieve the best possible results. As a show of its commitment to finding solutions, the spa also invests heavily in research and the latest in wellness technology to deliver advanced treatments that maximise the efficacy of SK-II products.

Luxury and comfort are part of the indulgence, right down to the innovative Sensational Bed which is designed to help lower levels of stress hormones so your skin attains a state of relaxation for optimum treatment results. What keeps customers coming back, however, is top-notch service. The concept of dedicated and personalised customer service experience is ingrained in every staff member. All are required to undergo mandatory training and yearly evaluation to ensure they are able to provide unsurpassed care and service to the customer.

After over a decade of helping Singapore customers find bliss and beauty, SK-II Boutique Spa brings its brand of luxury wellness abroad with a new opening at the upscale The Gardens Mall in Mid Valley City, Kuala Lumpur, Malaysia in January 2018. 📍
