Facial

We cannot turn back time and reverse ageing, but the experts at the SK-II Boutique Spa might be able to press pause for a while on the signs of ageing we see in our faces. The anti-ageing Senze Awakening Facial not only uses your favourite SK-II skincare treats but also incorporates a gentle firming facial massage to breathe life back into a tired and dull-looking complexion while reducing the signs of ageing.

The secret lies in the three advanced skincare solutions used – the WishPro Magnetic Impulse Technology (MIT) and Safe-Scrub™ treatments, and a customisable light-therapy LED Mask. They come together to give skin a clear and youthful glow in just 90min.

Like all SK-II facials, this starts with

a calming Aromatic Rituals step, followed by the spa's signature triple-cleansing, a light steaming, and an extraction to get rid of trapped impurities. Your skin is then soothed and massaged, lulling you into an even deeper state of relaxation.

Then the magic begins.

The WishPro MIT device used has a unique applicator head that converts electromagnetic pulses

into active energy to boost lymphatic drainage and increase cellular oxygenation. The result is better microcirculation, which leads to a glowing, healthier-looking complexion. Next comes a WishPro Peel Exfoliator capsule which uses sweet almond oil and Safe-Scrub technology to effectively and efficiently slough off dead skin cells, revealing a smoother and more refined skin texture.

Best bit? It's so gentle that it minimises skin irritation, and is suitable even for sensitive skin. To finish the treatment, an LED Mask with a customisable light-therapy function further strengthens and enhances the benefits to your skin.

\$400 for 90min. For more information, visit #02-26B Raffles City Shopping Centre, tel: 6336-4880; or #02-06 Shaw Centre, tel: 6836-9168.
